SUMMARY

Results-driven Business Intelligence Developer with a strong foundation in software development and workforce analytics. Proven expertise in building operational, executive, and client-facing dashboards in Power BI and DOMO that empower leadership decision-making. Skilled in staffing and attendance reporting across multiple sites, Python automation, and cross-functional collaboration. Combines technical proficiency with analytical thinking to deliver actionable insights that drive business performance. Known for knowledge-sharing, process improvement, and adaptability in fast-paced healthcare environments.

WORK EXPERIENCE

Business Intelligence Developer **May 2026 - Present**
Knack RCM Lipa City, Batangas

- Develop and maintain operational, executive, and client-facing dashboards in Power BI and DOMO, translating multi-source data into actionable insights for leadership and stakeholders.
- Own end-to-end staffing across all sites, consolidating data from multiple resources to produce accurate daily staffing reports for workforce planning.
- Manage attendance reporting from multiple data sources across sites, delivering hourly updates to executives to support real-time staffing and operational decisions.
- Build Python scripts and automation tools to streamline data collection and reporting workflows, increasing turnaround speed for the team.

Workforce Analyst **June 2025 - May 2026**
Knack RCM Lipa City, Batangas

- Designed and developed comprehensive Power BI and DOMO dashboards utilized daily by managers and leaders for strategic workforce planning and operational oversight across multiple programs.
- Created Headcount Dashboard integrating multiple data streams including headcount metrics, billable hours tracking, attendance analytics, hiring forecasts, and some other reports.
- Built and maintain Productivity Dashboards for multiple programs, consolidating KPIs and performance metrics for daily operational reports and weekly business reviews with clients.

Healthcare Associate **Aug 2024 – June 2025**
HealthyBos Global Lipa City, Batangas

- Demonstrated fast system navigation and multitasking while maintaining a high level of service.
- Utilized tools such as Microsoft Excel, Word, and internal systems to track and document cases.
- Collaborated with team members and leaders to improve processes, eagerly taking on new responsibilities to expand knowledge in reporting, leadership, and client satisfaction.

Web Developer | Internship **Dec 2023 - Apr 2024**
ShapeTech I.T. Services Lipa City, Batangas

- Developed features for the company's official website, enhancing user experience and functionality by utilizing HTML, PHP, CSS (Tailwind CSS), and JavaScript.
- Collaborated with a team of developers to implement responsive design principles.
- Participated in industry conferences to stay updated on web development trends.

Software Developer | Internship **Feb 2024 - Mar 2024**
Integr8 Software Solutions General Trias, Cavite

- Led development of the BookThrift platform using ASP.NET, HTML, CSS (Bootstrap), JavaScript, and SQL.
- Optimized system performance and usability, ensuring efficient user interactions.
- Implemented agile methodologies and presented project updates in team meetings, ensuring efficient progress, team alignment, and transparent communication.

PROJECTS

Freelance Web Developer **2022**
Remote

- Designed and developed custom websites for clients from UAE, Germany, and the United States across various industries such as e-commerce, business, and personal branding.
- Utilized modern web technologies including HTML, CSS (Tailwind/Bootstrap), JavaScript, PHP, and Shopify (Liquid) to deliver responsive, high-performance websites.
- Managed client communications and project timelines independently, prioritizing UI/UX design and cross-device compatibility to earn repeat business and referrals.

Researcher **Dec 2023**
Kolehiyo ng Lungsod ng Lipa Lipa City, Batangas

- Conducted comprehensive research on the ALICE (Assisted Language Improvement and Correction Experience) application, focusing on its impact on enhancing English proficiency among Filipino college students.
- Developed hypotheses and implemented interactive features, English lessons, and language games

within ALICE utilizing technologies such as natural language processing, speech-to-text, text-to-speech, and artificial intelligence.
- Received excellent feedback in areas such as functionality, compatibility, and user satisfaction.
- Contributed insights into the ALICE application's efficacy and potential in supporting English language proficiency, aligning with advancements in educational technology and AI-driven solutions.
